

E) Sagittal spinal balance – global and regional.

1. An analysis of sagittal spinal alignment in 100 asymptomatic middle and older aged volunteers. Gelb DE Lenke LG Bridwell KH Blanke K McEnery KW **Spine Journal** (Phila Pa 1976). 1995 Jun 15;20(12):1351-8. (R) (H)
2. Measurements of lumbopelvic lordosis using the pelvic radius technique as it correlates with sagittal spinal balance and sacral translation. **Spine Journal** 2002 Nov-Dec;2(6):421-9. Gardocki RJ Watkins RG Williams LA (R)
3. Review of scientific literature relevant to structural rehabilitation of the spine and posture: Rationale for treatment beyond resolution of symptoms. Troyanovich SJ, Harrison DE, Harrison DD **J Manipulative Physiol Ther.** 1998;21(4)252-256 (R) (H)
4. A normal spine position: Accepting the evidence. Harrison DE, Harrison DD. **J Manipulative Physiol Ther.** 2000;23 p623-644 (R)
5. Evidence based protocols for structural rehabilitation of the spine and posture: Review of clinical biomechanics of posture Oakly PA, Harrison DD, Harrison DE **J. Canadian Chiro assoc** 2005;49(4)p268-294 (T)
6. Variability in Cobb angle measurements using reformatted computerized tomography scans. Adam CJ, Izatt MT, Harvey JR, Askin GN, **Spine Journal** 2005 Jul15;30(14)p1664-9 (R)
7. A variability study of computerized sagittal spinopelvic radiographic measurements of trunk balance. Berthonnaud E, Labelle H, Roussouly P, Grimard G, Vaz G, Dimnet J. **J Spinal Disorders Tech** 2005 Feb;18(1)66-71.... (R)
8. Relationship Between Vertebral Deformities And Allergic Diseases. Takeda Y, Arai S. **The Internet Journal of Orthopedic Surgery** 2004;2(1): “We investigated the spinal condition of 1,028 atopic dermatitis patients and bronchial asthma patients to consider the relationship between the allergic disease and the spinal misalignments. “the possibility may be considered that chronic nerve compression secondary to vertebral deformity in the thoracic region had a significant effect on the immune function of atopic dermatitis and bronchial asthma patients. The adrenal cortex functions of these allergy patients may be in the chronic decline condition with this chronic nerve compression.” (H) (T)
9. Lumbopelvic lordosis and pelvic balance on repeated standing lateral radiographs of adult volunteers and untreated patients with constant low back pain. Jackson RP, Kanemura T, Kawakami N, Hales C. **Spine** 2000; 25: 575-586. (R) (H)

10. Impact of postural deformities and spinal mobility on quality of life in postmenopausal osteoporosis Miyakoshi N. **Osteop Int.** 2003;14 1007-1012. (H)
11. Impact of positive sagittal balance in adult spinal deformity. Glassman SD, Bridwell K, Dimar JR, Horton W, Berven S, Schwab F. **The Spine** 2005;30:2024-2029. (H)
12. Pelvic morphology affects the sagittal plane alignment of the lumbo-pelvic spine normal subjects and low back pain patients. Harrison DE, Keller TS, Harrison DD, Janik TJ, Colloca CJ. Proceedings of the 34th annual meeting of **the International Society for the Study of the Lumbar Spine (ISSLS)** 2007; June 10-14, Hong Kong, China:p148. (R) (H)
13. Sagittal balance of the pelvis-spine complex and lumbar degenerative diseases. A comparative study about 85 cases. Barrey C, Jund J, Nosedá O, Roussouly P. **Eur Spine J** 2007; 16:1459–1467. (H)
14. Clinical measurement of head and shoulder posture variables. Harrison AL, Barry-Greb T, Wojtowicz G. **JOSPT** 1996;23:353-361. (T)
15. Body posture and hand strength of patients with temporomandibular disorder. Shiau YY, Chai HM. **J Craniomand Pract** 1990;8:244-251. (T)
16. Cervical headache: an investigation of natural head posture and upper cervical flexor muscle performance. Watson DH, Trott PH. **Cephalalgia** 1993;13:272-284. (T)
17. Relationship of forward head posture and cervical backward bending to neck pain. Haughie LJ, Fiebert IM, Roach KE. **J Manipulative Physiol Ther** 1995(3):91-97. (H)
18. Posture in patients with shoulder overuse injuries and healthy individuals. Greenfield B, Catlin PA, Coats PW, Green E, McDonald JJ, North C. **J Orthop Sports Phys Ther.** 1995 May;21(5):287-95. (T)
19. The relationship between forward head posture and temporomandibular disorders. Lee WY, Okeson JP, Lindroth J. **J Orofac Pain.** 1995 Spring;9(2):161-7. (H)
20. Musculoskeletal abnormalities in chronic headache: A controlled comparison of headache diagnostic groups. Marcus DA, et al. **Headache** 1999;39:21-27. (H)
23. Surface contour whole spine and body to Gait abnormalities. Hirose D, et al. **Clin**

Biom 2004;19:57-63. (H)

24. Trunk deformity is associated with a reduction in outdoor activities of daily living and life satisfaction in community-dwelling older people. Takahashi T, Ishida K., et al. **Osteoporosis Int.** 2005;16: 273-279. (H)
25. Forward head posture and neck mobility in chronic tension-type headache: a blinded, controlled study Fernández C, et al. **Cephalalgia** 2006;26(3):314-319. (H)
26. Influence of spine morphology in intervertebral disc loads and stresses in asymptomatic adults: Implications for the ideal spine. **Spine Journal** 2005 May-June:5(3)297-309 .(H)
27. Performance of the craniocervical flexion test, forward head posture, and headache clinical parameters in patients with chronic tension-type headache: a pilot study. Fernandez-de-las-Peñas C, Pérez-de-Heredia M, Molero-Sánchez A, Miangolarra-Page JC **J Orthop Sports Phys Ther.** 2007 Feb;37(2):33-9. (H)
28. The relationship between posture and curvature of the cervical spine. Visscher CM, de Boer W, Naeije M. **Journal of manipulative physiol therapy** 1998 Jul-Aug:21(6)388-91 (R)
29. Effects of abnormal posture on abnormal ligament elongations in a computational model subjected to whiplash loading. Stemper BD, Yoganandan N, Pintar FA. **J Biomechanics** 2005 jun38(6):1313-23 (H)
30. Resting position variable at the shoulder: Evidence to support a posture impairment association. **Phys Ther** 2006 Apri:86(4):549-57 (H)
31. The effect of scapular protraction on isometric shoulder rotation strength in normal subjects: **J Shoulder Elbow surgery** 2006 May-Jun:15(3) 339-43 (H)
32. The effects of upright and slumped posture on the recalls of positive and negative thoughts. **Appl Psychophysiology biofeedback** 2004 Sept:29(3)189-95 (H)
33. The representation of self-reported effect in body posture and body posture simulation; **Coll Antropol.** 2004 28 suppl 2:159-73 (H)
34. Clinical characteristics of flexed posture in elderly women. **J Am Geriatric Soc.** 2003 Oct: 51(10) 1419-26 (H)
35. Hyperkyphotic Posture Predicts Mortality in Older Community-Dwelling Men and

Women: A prospective Study. Deborah Kado,MD, MS,Mei-Hua Huang, DrPH,Arun S. Karlamangla, MD, PhD, Elizabeth Barrett-Connor, MD,w and Gail A. Greendale, MD **Journal of American Geriatrics Society**. Volume 52 Issue 10 Oct 2004 p1662 (H)

36. The impact of positive sagittal balance in adult spinal deformity. **Spine** Volume 30(18). Sept 15 2005 pp2024-2029 (H)
37. A review of biomechanics of the central nervous system—part III: Spinal cord stresses from postural loads and their neurologic effects Deed E. Harrison, Rene Cailliet, Donald D. Harrison, Stephan J. Troyanovich, Sanghak O. Harrison **Journal of Manipulative and Physiological Therapeutics** July 1999 (Vol. 22, Issue 6, Pages 399-410) (H)
40. How Do Anterior/Posterior Translations of the Thoracic Cage Affect the Sagittal Lumbar Spine, Pelvic Tilt, and Thoracic Kyphosis? Harrison DE, Cailliet R, Harrison DD, Janik TJ. Eur **Spine J** 2002; 11(3): 287-293. (R) (H)
41. White Paper on Sagittal Plane Deformities and Analysis. Knight RQ, Jackson RP, Killian JT, Stanley EA, Lowe T, Winter RB. 2003 **Scoliosis Research Society**. (R)
42. Reciprocal angulation of vertebral bodies in a sagittal plane: approach to references for the evaluation of kyphosis and lordosis. Stagnara, P, DE mauroy JC, Dran G, Gonon GP, Costanzo G, Dimnet J, Pasquet A. **Spine** 1982; 7:335-342. (R)
43. Morphological and Biomechanical Modeling of the Thoracoc-lumbar Spine: Implications for the Ideal Spine. Keller Ts, Colloca CJ, Harrison DE, Harrison DD, Janik TJ. **Spine Journal** 2005; 5:297-305. (R)
44. The effect of variation in arm position on sagittal spinal alignment. Vedantam R, Lenke LG, Bridwell KH, Linville DL, Blanke K. **Spine**. 2000 Sep 1;25(17):2204-9. (R)
45. A need for the lateral full spine x-ray as a diagnostic complement to the A-P full spine view in chiropractic postural study. Thompson G. **J Can Chiropr Assoc** 2001;45(1):9,10. (R)
47. Congruent spinopelvic alignment on standing lateral radiographs of adult volunteers. Jackson RP, Hales C. **Spine**. 2000 Nov 1;25(21):2808-15. (R)
48. Radiographic and biomechanical analysis of patients with low back pain: a

prospective clinical trial. Harrison DE, Keller TS, Betz JW, Colloca CJ, Haas JW, Harrison DD, Janik TJ. Proceedings of the 32nd Annual Meeting of the **International Society for the Study of the Lumbar Spine**, New York, NY, May 10-14, 2005:162. (T) (R)

49. Prediction of Osteoporotic Spinal Deformity. Keller TS, Colloca CJ, Harrison DE, Harrison DD, Janik TJ. **Spine** 2003; 28(5): 455-462. (H)
50. Radiographic analysis of the sagittal alignment and balance of the spine in asymptomatic subjects. Vialle R, Levassor N, Rillardon L, Templier A, Skalli W, Guigui P **J Bone Joint Surg Am.** 2005 Feb;87(2):260-7. (R)
51. Normal posture of spine determined by mathematical and statistical methods. Beck A, Killus J. **Aerospace Medicine** 1973;Nov.:1277-1281. (R)
52. The sagittal profile of the cervical and Lumbosacral spine in Scheuermann thoracic kyphosis. Loder RT. **J Spinal Disorders** 2001;14:226-231. (R)
53. Anterior thoracic posture increases thoracolumbar disc loading. Harrison DE, Colloca CJ, Keller TS, Harrison DD, Janik TJ. **Eur Spine J** 2005;14:234-242. (H) (R)
54. Sagittal alignment in lumbosacral fusion: relations between radiological parameter and pain. Lazenec J-Y, Ramare S, Arafati N, Laudet CG, Gorin M, Roger B, Hansen S, Saillant G, MaursL, Trabelsi R. **Eur Spine J** 2000;9:47-55. (R) (H)
55. Dynamic sagittal imbalance of the spine in degenerative flat back. Significance of pelvic tilt in surgical treatment. Lee CS, Lee CK, Kim YT, Hong YM, Yoo JH. **Spine** 2001;26:2029-2035. (H) (R)
56. A longitudinal study of congruent sagittal spinal alignment in an adult cohort. Kobayashi T, Atsuta Y, Matsuno T, Takeda N. **Spine** 2004; 29:671-676. (R)
57. Plain film radiography in chiropractic. In, Plaughter G, editor: Textbook of Clinical Chiropractic. A Specific Biomechanical Approach. . Rowe SH. Williams & Wilkins, Baltimore, 1993 (R)
58. A look at Chiropractic Spinal Correction. Cumberland, WI: Toftness Chiropractic, Inc., 1977. Toftness IN. (T)
59. Organ Dosimetry in Spinal Radiography: A Comparison of 3-Region Sectional and Full-Spine Techniques. Cracknell DM, Bull PW. **Chiropr J Aust**

2006; 36:33-9. (R)

60. Textbook for clinical chiropractic: a specific biomechanical approach. Plaucher G. Baltimore: Williams & Wilkins, 1993. (T)
61. Influence of spine morphology in intervertebral disc loads and stresses in asymptomatic adults: Implications for the ideal spine. **Spine Journal** 2005 May-June;5(3)297-309. (H)
62. Sustained loading generates stress concentrations in lumbar intervertebral discs. Adams MA, McMillan DW, Green TP, Dolan P. **Spine** 1996;21:434-8. (H)
63. A Review of Biomechanics of the Central Nervous System—Part II: Spinal Cord Strains from Postural Loads. **JMPT** Volume 22 June 1999 Deed E. Harrison, DC, Rene Cailliet, MD, Donald D. Harrison, PhD, DC, Stephan J. Troyanovich, DC, and Sanghak O. Harrison, DC (H) (R)
64. The role of spinal flexion and extension in changing nerve root compression in disc herniations. Schnebel BE, Watkins RG, Dillin W. **Spine** 1989;14:835-7. (H)
66. Lumbar disc degeneration and sagittal flexibility. Burton AK, Battie MC, Gibbons L, Videman T, Tillotson KM. **J Spinal Disord** 1996;9:418-24. (H)
67. Full-spine radiography: a review. Taylor JA. **J Manipulative Physiol Ther.** 1993 Sep;16(7):460-74. Review. (R)
68. Attributes and qualities of human posture and their relationship to dysfunction or musculoskeletal pain. Raine S, Twomey L. **Crit Rev Phys Rehabil Med** 1994;6:409-37.(H)
69. Textbook for clinical chiropractic: a specific biomechanical approach. Plaucher G. Baltimore: Williams & Wilkins, 1993. (T)
70. A look at Chiropractic Spinal Correction. Cumberland, WI: Toftness Chiropractic, Inc., 1977. Toftness IN. (T)
71. Pathogenesis, presentation, and treatment of lumbar spinal stenosis associated with coronal or sagittal spinal deformities. Fraser JF, Huang RC, Girardi FP, Cammisa FP Jr. **Neurosurg Focus.** 2003 Jan 15;14(1):e6. (T)
72. Structural rehabilitation of the lumbar spine. Published 2006 by Deed Harrison (T)

73. Physiological value of pelvic and spinal parameters of sagittal balance: analysis of 250 healthy volunteers] Guigui P, Levassor N, Rillardon L, Wodecki P, Cardinne L. Rev **Chir Orthop** Reparatrice Appar Mot. 2003 Oct;89(6):496-506. (R)
74. Low Back Stability: From Formal Description to Issues for Performance and Rehabilitation. **Exercise and Sport Science Reviews**. 29, 26-31.(T)
75. Significant reduction in risk of falls and back pain in osteoporotic-kyphotic women through a Spinal Proprioceptive Extension Exercise Dynamic (SPEED) program. (T)
Sinaki M; Brey RH; Hughes CA; Larson DR; Kaufman KR Department of Physical Medicine and Rehabilitation, **Mayo Clin Proc**. 2005; 80(7):849-55 (ISSN: 0025-6196)
